Payment example: For a sales price of \$365,000 with 5% down, a loan amount of \$346,750 on a 30-year fixed conventional loan at a 7.500% interest rate (8.000% APR) would have 360 monthly principal and interest payments of approximately \$2,424.53. Payment shown is principal and interest only and excludes taxes, insurance, PMI, and HOA dues; the actual payment will be higher. Rates are for example only, are not a quote, and are subject to change.
